Overview

In addition to our alert notifications, you can set up a dashboard widget that shows the alerts you have that are currently in Warning or Critical state in a table format. As soon as your alerts move from Warning or Critical to the Clear state, they will disappear from this widget.

Active Alerts Widget

Name	Type	Measured Level	Critical Threshold	Warning Threshold	Eval Window	Alerting Since	Transaction	Page	Status
Test Alert KAR	Synthetic Performance Percent Change	-3.34	80	10	5Min	Feb 27 2024 14:45	n/a	HomePage	Warning
Mark Test SMS Alert	Performance	2019 ms	8000 ms	2000 ms	30Min	Feb 27 2024 02:25	n/a	n/a	Warning
Demo Perf	Domain	n/a	n/a	n/a	60Min	Dec 15 2021 10:45	n/a	All Pages	Critical
QA Native App	Native App Performance	2135	2000	1000	60Min	Nov 7 2022 16:10	n/a	n/a	Critical
webhook 9/29	Performance	2020 ms	1 ms	3 ms	5Min	Sep 29	n/a	n/a	Critical

Information Displayed in Table

This widget displays all active alerts. The information displayed on the table for each alert is listed below.

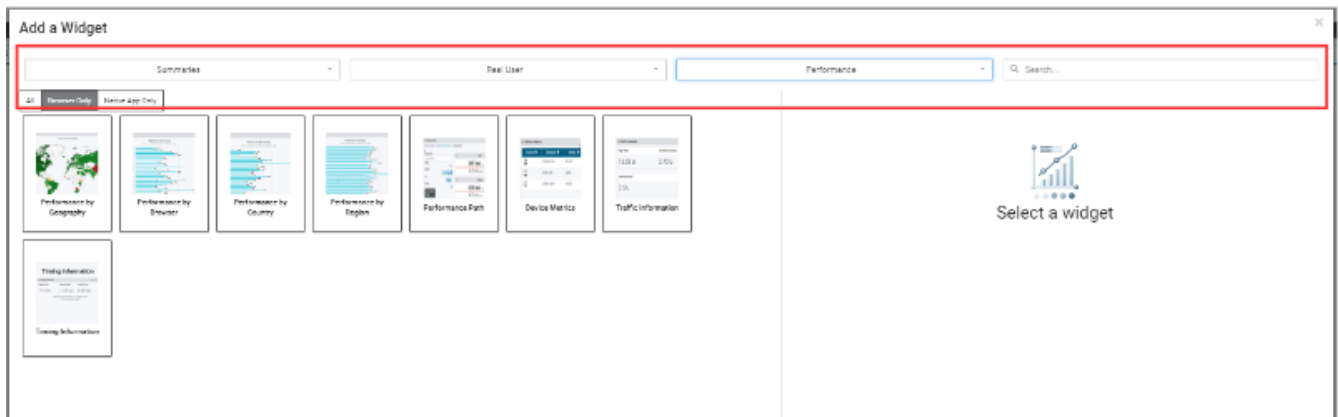

- Alert Name
- Alert Type
- Current Measured Level
- Critical Threshold
- Warning Threshold
- Evaluation Window
- Alerting Since (when the alert first entered warning/critical state)
- Transaction (Traffic Segment)
- Page(s)
- Status (Warning or Critical)

Find Widget

Once you enter the Add a Widget menu, you will see a variety of filter options on top. One way to find the Active Alerts Widget is to use the filter options listed below.

Filter Title	Filter Option
Widget Type	Alerts/Notification

Another way to find the Active Alerts Widget is to use the search bar at the top right of the menu.

Widget Configuration

To configure this widget, give it a title and select the proper site.
