### Sample Conversions Over Time

## Overview

The Conversions Over Time Widget shows you the **real time conversion rate, average order value and performance** for any and all traffic segments visiting your site. This widget gives you insight into how average order value and conversion rate are affected due to performance.

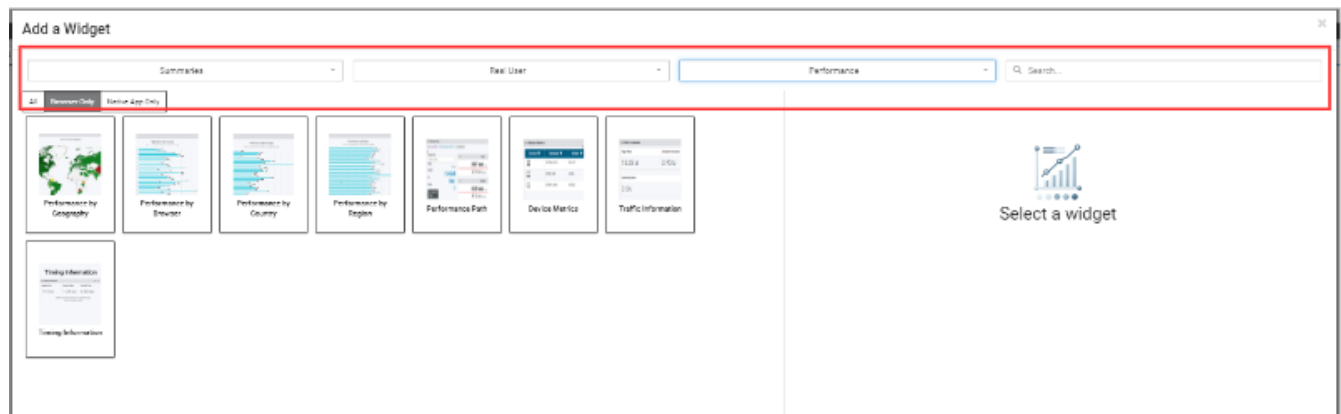

Click the legend items to hide or show the lines in the graph.

## Find Widget

Once you enter the Add a Widget menu, you will see a variety of filter options on top. One way to find the Conversions Over Time Widget is to use the filter options listed below.

| Filter Title | Filter Option |
|--------------|---------------|
| Widget Type  | Trends        |
| Data Type    | Real User     |
| Insight Type | Business      |

Another way to find the Conversions Over Time Widget is to use the search bar at the top right of the menu.

## Widget Configuration

To configure this widget, fill out all required sections and apply any filtering you need.

*Note: You cannot use the page name filter option in the Conversions Over Time widget.*
