Overview

The Revenue Over Time Widget shows you the real time revenue, page views, orders and session activity for any and all traffic segments visiting your site. Hover your mouse over the graph and you'll get a tool-tip reading of the numbers at this time.

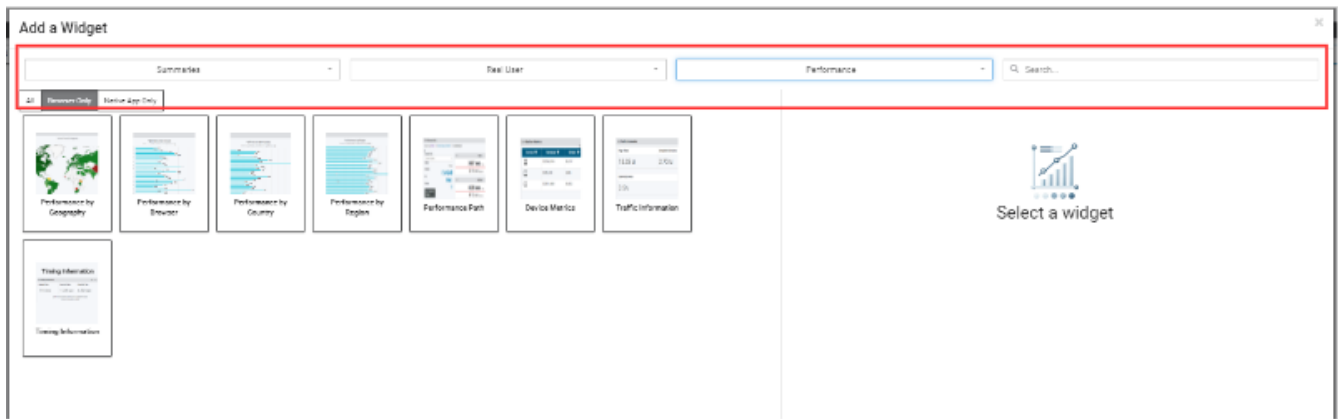

You can filter the data with the standard set of filter options, minus page name. Like all of our graphs in Blue Triangle, you can click the legend items to hide or show the lines in the graph.

Find Widget

Once you enter the Add a Widget menu, you will see a variety of filter options on top. One way to find the Revenue Over Time Widget is to use the filter options listed below.

Filter Title	Filter Option
Widget Type	Trends
Data Type	Real User
Insight Type	Business

Another way to find the Timing Information Widget is to use the search bar at the top right of the menu.

Widget Configuration

To configure this widget, fill out all required sections and apply any filtering you need.
